

## AbsorbMax™ Black Films for Fluorescence and Photoprotection

AbsorbMax™ films are 200 µm thick black vinyl adhesive films for use primarily with 96-well, 384-well, and 1536-well black microplates. They may be applied to the top or bottom of the plate. Edge cutouts assist in positioning and accommodate ribs on the plate bottom. A single-split backing aids in applying the film properly. There are no end tabs. The light-blocking and absorbing properties of AbsorbMax films make them ideal for protecting light-sensitive samples during storage. In fluorescence applications they reduce stray light and well-to-well crosstalk. Dimensions 76.2 by 114.3 mm. AbsorbMax films will fit within the rim of raised-rim plates. Recommended temperature range: -40 °C to +80 °C. Sterile product is packaged in 100 µm tamper-evident bags of 25.

- black light-absorbing sealing films for use with black microplates
- may be applied to top or bottom of plate
- protect light-sensitive samples during storage
- reduce stray light and crosstalk in fluorescence assays

Catalog No.	Description
BK-50	AbsorbMax Black Films, Pkg of 50, <b>Non-Sterile</b>
BKS-25	AbsorbMax Black Films, Pkg of 50 in two zip bags of 25, <b>Sterile</b>

## BrightMax™ White Films for Luminescence and Microscopy

BrightMax™ films are 200 µm thick white vinyl adhesive films for use with white microplates. The light-reflective properties of BrightMax plate-sealing films on clear-bottom plates maximize sensitivity of bioluminescence and chemiluminescence assays in bottom-reading luminometers. White films also have application as a backing matrix for microscopy of punchout samples from filter plates. Dimensions are 76 by 116 mm with no end tabs. A backing split singly on the long dimension aids in applying film to plates. Recommended temperature range: -40 °C to +80 °C.

- white light-reflecting sealing films for use with white microplates
- may be applied to top or bottom of plate
- maximize sensitivity in luminescence assays

Catalog No.	Description
WT-50	BrightMax White Films, Pkg of 50, <b>Non-Sterile</b>
